Meet Miracle Kid, Devin!

Devin's story began with a fight to breathe. Born early with underdeveloped lungs, he was intubated just hours after birth and spent 17 days in the NICU. When his nurse noticed something wasn't right with his breathing, pediatric ENT (ears, nose and throat)

specialist Dr. Winslo Idicula discovered that Devin's airway was about the size of a coffee straw, making it difficult for him to breathe, feed, and grow.

Over his first five months of life, Devin underwent eight surgeries to open his airway. Thanks to special equipment purchased with donations to the Children's Miracle Network, Dr. Idicula can perform life-saving procedures that give kids like Devin a second chance at life.

Today, Devin is thriving. His laughter fills his home, and every breath he takes is a miracle. You can help more children like Devin by supporting CMN at UMC Children's Hospital. Together, we're making miracles possible!

- Featured on the 2026 Klays for KIDS Towel
- Recognized at 2 Shooting Stations
- Featured on the Inside Table Signage
- Recognized During Lunch Program and Presented with Hand-Made Kid Art

Includes 1 teams & 1 carts

Meet Miracle Kid, Sealey the Survivor!

What began as a routine visit for an ear infection quickly became life-changing when lab results led to Sealey being directly admitted to UMC Children's Hospital. Within hours, he met Dr. Al and was diagnosed with Acute Myeloid Leukemia (AML). From May through November 2024, Sealey bravely endured an aggressive course of chemotherapy, spending much of that time in the hospital due to a weakened immune system. Along the way, he faced infections, lost his hair, and even celebrated his second birthday surrounded by his care team.

Supported by compassionate physicians, nurses, and the generosity of the community, Sealey is now in short-term remission and proudly rang the bell in December 2024. His journey is a powerful testament to resilience, hope, and the lifesaving care made possible through donor support.

SPONSORSHIP opportunities

Lone Star Lid Sponsor - \$3,000

- Featured on the 2026 Klays for KIDS Hat
- Recognized at 2 Shooting Stations
- Featured on the Inside Table Signage
- Recognized During Lunch Program and Presented with Hand-Made Kid Art

Meet Miracle Kid, **Annsleigh!**

What began as a simple afternoon of play turned into a life-altering moment when a tree limb unexpectedly broke, pinning Annsleigh and causing a severe skull fracture. She spent 15 days on a ventilator and underwent three critical surgeries.

Annsleigh remained at UMC Children's Hospital for 7 weeks, where a team of highly specialized pediatric trauma surgeons and physicians provided expert, compassionate care, including Dr. Tiva.

Because of this extraordinary team, Annsleigh is now making remarkable progress. She is recovering every day and has relearned how to walk and talk. Her journey is a powerful reminder of the lifesaving care made possible through donor support.
